https://leetcode.com/u/Siddharth09_23/ | <https://portfolio-siddharth-mishra.vercel.app/>

Backend-focused Java developer with strong skills in **Data Structures, Algorithms, and scalable backend system design**. Solved **500+ LeetCode problems** and built multiple applications using **Spring Boot, REST APIs, and distributed messaging systems**.

Education

B.Tech in Computer Science and Engineering (Galgotias College of Engineering and Technology) : (Pursuing)

Class 12, ISC Board : 89.60%

Class 10, ICSE Board : 87.20%

Skills

Languages: Java;

Backend: Spring Boot, REST APIs, JDBC;

Frontend: HTML, CSS, JS;

App Development: Android Development (Java, XML, Android Studio);

Tools: Git, GitHub, Google Colab, Postman;

Soft Skills: Leadership & Team Management, Problem Solving, Effective Communication, Adaptability, Time Management, Critical Thinking, English Proficiency;

Core CS: Data Structures & Algorithms, Algorithm Design, Object-Oriented Programming, Problem Solving

Projects

Smart Notification Orchestrator [\(GITHUB REPOSITORY\)](#)

Designed and developed a **distributed notification orchestration system** supporting **Email, SMS, WhatsApp, and Push notifications**. Implemented **asynchronous message processing, provider fallback, retry mechanisms, and rate limiting** using **Spring Boot, message queues (Kafka/RabbitMQ), Redis, and PostgreSQL**. Built a scalable backend architecture to ensure reliable message delivery and fault tolerance.

Real-Time Order Processing System [\(GITHUB REPOSITORY\)](#)

Built a **real-time event-driven order processing system** using **Spring Boot, Kafka, and API Gateway**. Implemented asynchronous communication between microservices (Order, Inventory, Payment, Notification) for scalable and fault-tolerant processing. Designed **REST APIs and centralized routing with API Gateway**, enabling end-to-end workflow from order creation to notification delivery.

Resume Analyzer [\(GITHUB REPOSITORY\)](#)

Built a **full-stack Resume Analyzer platform** using **Spring Boot and REST APIs** that performs resume parsing, skill extraction, and job-role matching. Implemented **OTP-based email verification, backend API architecture, and automated skill scoring logic**.

Achievements & Certifications

- Solved **500+ algorithmic problems on LeetCode**, covering **graphs, dynamic programming, greedy algorithms, recursion, backtracking, and advanced data structures**.
- Earned **9 badges on LeetCode** demonstrating consistency and problem-solving proficiency.
- Qualified for **ICPC Regionals 2024** as part of Team CodeSync Squads, securing Rank 358.
- Secured **Rank 34 in CodeChef DSA Monday Challenge 29** with a score of 500+ among competitive participants.
- Led teams in large-scale hackathons.
- Hackathon Participation Certificate – [\(Microsoft Azure\)](#)
- Android Developer Certification by Meta – [\(Coursera Certificate\)](#)
- GATE qualified in first attempt.
- Completed multiple real-world projects across Spring Boot, Android Studio, AI, and Machine Learning, showcasing full-stack and intelligent system development.
- Served as the Club Head of GCET's only Technical Club during my 3rd year, leading events and technical initiatives.
